"Know Dementia, Know Alzheimer's"

PG Department of Social Work

PG DEPARTMENT OF SOCIAL WORK SEPTEMBER 21, 2021

DID YOU KNOW ?

ALZHEIMER'S DISEASE FACTS

- Alzheimer's disease is the most common form of dementia and may contribute to 60-70% of cases.
- Currently more than 55 million people live with dementia worldwide, and there are nearly 10 million new cases every year.
- Dementia is currently the seventh leading cause of death among all diseases and one of the major causes of disability and dependency among older people globally.
- The most common early symptom is trouble remembering new information because the disease typically impacts the part of the brain associated with learning first.
- Greatest known risk factor for Alzheimer's is increasing age, the disease is not a normal part of aging. And though most people with Alzheimer's are 65 and older.
